

Spa Safety Protocols

The safety of our clients and staff remains our top priority. Our Spa is cleaned and disinfected using EPA registered, hospital grade, nonirritant disinfectants. High traffic areas are sanitized often. All employees have completed the Barbicide COVID-19 Training Certification for the Professional Beauty Industry.

Our employees will be wearing face coverings, glasses and protective gloves and we've put social distancing measures in place.

We will provide hand washing capabilities and hand sanitizer is available throughout the spa.

In compliance with government regulations, our lounge area and locker rooms are closed. Rest rooms are available.

Beverages and snacks will not be offered. Blankets, pillows, magazines and product testers have been removed temporarily. Plexiglas partitions are set up at the front desk and at each nail station.

- **Appointment Required**
